Each one of our outstanding peer reviewers has been carefully selected by our editorial team, and the list includes active researchers who have made significant contributions to peer review and have gone above and beyond in their actions. In recognition of the varied contributions of our reviewer community, our Outstanding Reviewers from 2024 have been chosen based on several different measures, including the number, timeliness, and quality of the reports completed during 2024. We also highlight reviewers who have provided exceptionally thorough and detailed reports, as well as reviewers who have made additional efforts to aid authors in improving their manuscripts.

RSC Mechanochemistry strives to represent the diversity of the mechanochemistry community, and we would like our reviewer community to reflect that. We are always looking to improve the diversity of our reviewer community in all its forms, and welcome applications for new reviewers through the RSC's **Become a Reviewer** page.

“The peer review process is the key mechanism of vetting and moving science forward and we are very grateful to our reviewers for their outstanding contributions of time, energy, and expertise to this effort, which continues to ensure the

Outstanding Reviewers for *RSC Mechanochemistry* in 2024

We would like to take this opportunity to thank all of *RSC Mechanochemistry's* reviewers for helping to preserve quality and integrity in chemical science literature. We would also like to highlight the Outstanding Reviewers for *RSC Mechanochemistry* in 2024.

reliability and impact of scientific discovery.” – James Batteas and Tomislav Frišćić, Editors-in-Chief.

We would also like to thank the *RSC Mechanochemistry* Editorial Board and Advisory Board and the mechanochemistry community for their continued support of the journal, as authors, reviewers and readers.

We continue to work on improving the diversity of our reviewer pool to reflect the diversity of the communities that we serve.
