## Correction: Mechanochemical synthesis of eucairite CuAgSe and investigation of physicochemical and transport properties

Dáša Drenčáková,<sup>a,b</sup> Marcela Achimovičová,<sup>\*a</sup> Matej Baláž,<sup>a</sup> Jiří Navrátil,<sup>c</sup> Erika Tóthová,<sup>a</sup> Maksym Lisnichuk,<sup>d</sup> Jaroslav Briančin,<sup>a</sup> Viktor Puchý<sup>e</sup> and Tomáš Plecháček<sup>c</sup>

Correction for 'Mechanochemical synthesis of eucairite CuAgSe and investigation of physicochemical and transport properties' by Dáša Drenčáková et al., RSC Mechanochem., 2025, 2, 246–255, <https://doi.org/10.1039/D4MR00111G>.

The authors regret that an incorrect version of Fig. 12 was included in the original article. The correct version of Fig. 12 is presented below.

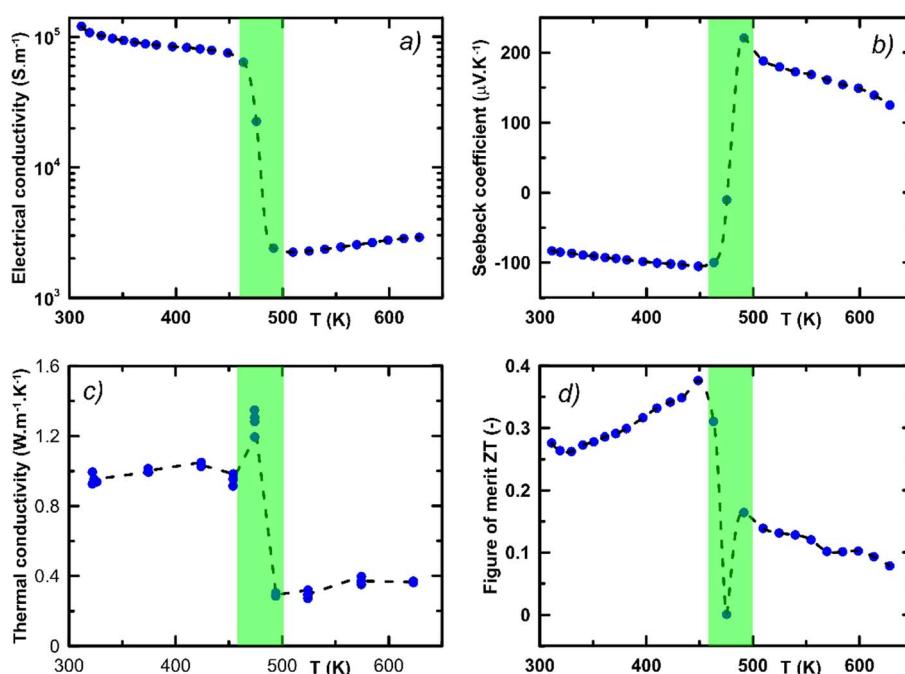

Fig. 12 Thermoelectric properties of CuAgSe, temperature-dependent (a) electrical conductivity  $\sigma$ , (b) Seebeck coefficient  $S$ , (c) thermal conductivity  $\kappa$ , and (d) thermoelectric figure of merit  $ZT$ . Semitransparent green rectangles represent the area of  $\alpha$  to  $\beta$  phase transition.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
