Expression of concern for 'Phytic acid-doped poly-*N*-phenylglycine potato peels for removal of anionic dyes: investigation of adsorption parameters' by Kahina Bouhadjra *et al.*, *New J. Chem.*, 2022, **46**, 5111–5120, <https://doi.org/10.1039/D1NJ04713B>.

The Royal Society of Chemistry is publishing this expression of concern in order to alert readers that concerns have been raised regarding the reliability of the data. The Royal Society of Chemistry has asked the University of Lille to investigate this matter. An expression of concern will continue to be associated with the article until we receive conclusive evidence regarding the reliability of the reported data.
