Correction for 'Nanophotonics of mid-infrared plasmon-polaritons at interfaces between metals and two-dimensional crystals' by Flávio H. Feres, *et al.*, *Nanoscale*, 2025, **17**, 13229–13237, <https://doi.org/10.1039/D4NR04543B>.

The authors regret an error in the funding information included in the Acknowledgements section in the published article. The corrected Acknowledgements section should read as follows.

All Brazilian authors thank the Brazilian Synchrotron Light Source (LNLS) for providing beamtime for SINS and s-SNOM experiments at the Imbuia Beamline of Sirius (Proposal 20232881). NeaSpec GmbH is acknowledged for its technical assistance. F. H. F. and R. O. F. acknowledge FAPESP support through the postdoc grant 2023/09839-5. F. C. B. M., and I. D. B. acknowledge financial support from the FAPESP (2022/02901-4). I. D. B., R. O. F. and F. C. B. M. acknowledge the CNPq through the research grants 306170/2023-0, 309946/2021-2, and 313672/2021-0, respectively. R. O. F. acknowledges the support from the FAPESP Young Investigator grant 2019/14017-9. I. D. B. acknowledges the financial support from the Brazilian Nanocarbon Institute of Science and Technology (INCT/Nanocarbono). D. A. B. acknowledges support from CAPES-PRINT (88887.310281/2018-00) and Mackpesquisa. The authors also thank the Brazilian Nanotechnology National Laboratory (LNNano) and LNLS, both part of the Brazilian Centre for Research in Energy and Materials (CNPEM), a private non-profit organization under the supervision of the Brazilian Ministry for Science, Technology, and Innovations (MCTI), for sample preparation and characterization.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
