Correction for 'TBAI-mediated electrochemical oxidative synthesis of quinazolin-4(3*H*)-ones from 2-aminobenzamides and isothiocyanates' by Jingbin Huang *et al.*, *Org. Biomol. Chem.*, 2025, **23**, 4860–4865, <https://doi.org/10.1039/d5ob00410a>.

The authors regret that the structure of compound **3qa** was incorrectly assigned. The compound is the isomeric *o*-ureidobenzonitrile and not the intended 2-aminoquinazolinone. The revised structure is shown in the corrected Table 2 below. In addition, updated supplementary information files have been published, which include the revised structure.
