Correction for 'Non-metal cocatalyst CNT-modified emerging g-C₃N₄ for enhanced treatment of waste drilling fluid filtrate' by Wenzhe Li et al., *RSC Adv.*, 2025, 15, 1311–1322, <https://doi.org/10.1039/D4RA07393B>.

The authors regret that an incorrect version of Fig. 7 was included in the original article. The correct version of Fig. 7 is presented here.

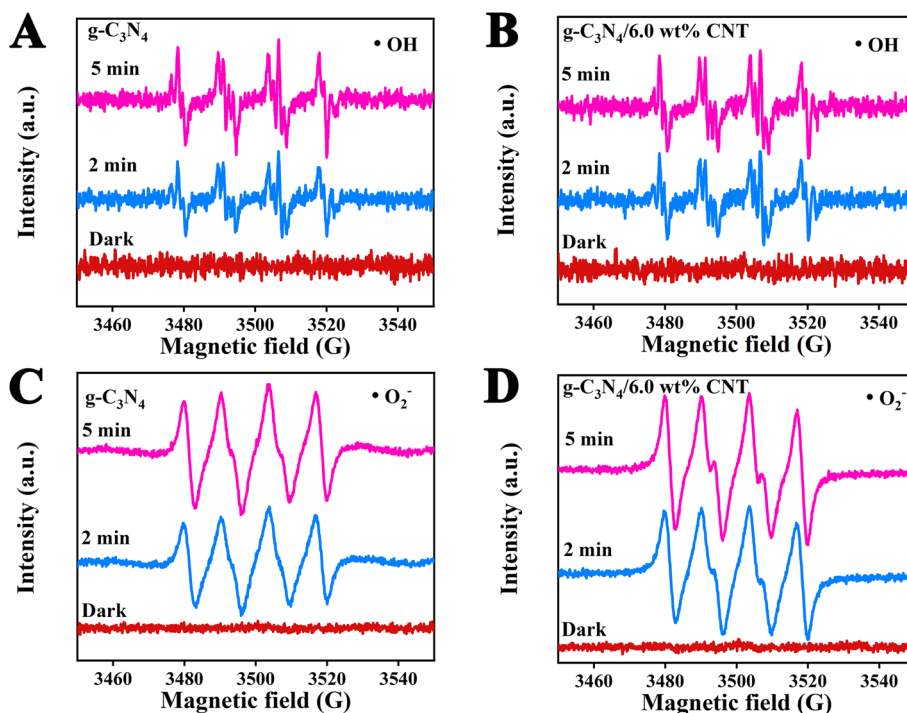

Fig. 7 The ESR spectral analysis of active species $\cdot\text{OH}$ (A and B) and $\cdot\text{O}_2^-$ (C and D) during photodegradation processes.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
