Correction for ‘Highly sensitive urine glucose detection with graphene field-effect transistors functionalized with electropolymerized nanofilms’ by Gonzalo E. Fenoy *et al.*, *Sens. Diagn.*, 2022, 1, 139–148, <https://doi.org/10.1039/D1SD00007A>.

The authors wish to clarify that informed consent was obtained from the human participant involved in this study. The donor participated voluntarily and the sample collection was conducted in full compliance with the authors' institutional policies and applicable ethical guidelines.

This information was inadvertently omitted from the original publication. Although the journal's guidelines have always required the inclusion of such ethical declarations, this omission was regrettably not identified during the editorial process. The authors and the journal regret any confusion this may have caused.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
