Each one of our outstanding peer reviewers has been carefully selected by our editorial team as having made significant contributions to peer review. We are pleased to highlight reviewers who provided exceptional peer review for RSC Sustainability, reviewers who regularly contribute to the review process providing clear and insightful reports and adjudicative reports, and those who make additional effort to aid authors in improving their manuscripts.

It is our family of reviewers who maintain the high standards that we set for publication in *RSC Sustainability*. We know that it takes time and effort to provide an excellent review and we are very appreciative of all of our reviewers who do this. Thank you.
