Correction for 'Thermoelectric properties of the aliovalent half-Heusler alloy $\text{Zn}_{0.5}\text{Ti}_{0.5}\text{NiSb}$ with intrinsic low thermal conductivity' by Blair F. Kennedy *et al.*, *J. Mater. Chem. A*, 2023, **11**, 23566–23575, <https://doi.org/10.1039/D3TA04514E>.

The authors regret that a funding agency that supported the work was omitted from the Acknowledgements of the original manuscript. The updated Acknowledgements section is as displayed herein.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.

Acknowledgements

The EPSRC is acknowledged for funding the research into new half-Heusler materials, through award (EP/N01717X/1) and for a PhD studentship for B. F. K. The ILL is acknowledged for easy-access beam time on the super-D2B instrument.⁴⁸ The ESRF is acknowledged for provision of inhouse beamtime (proposal IH-HC-3871).⁴⁹ A. Z. and A. A. S. acknowledge support from the National Science Foundation Grant DMR-2045122.
