Correction for 'Multimetallic assembly of concave-shaped rectangular Mn<sub>4</sub> clusters as efficient hydrogen evolution electrocatalysts' by Chandan Sarkar *et al.*, *J. Mater. Chem. A*, 2025, <https://doi.org/10.1039/D5TA01854D>.

The authors regret that in the Graphical abstract and Fig. 4 of the original article, incorrect Tafel plots were included. The authors also regret errors in the Graphical abstract text. The correct Graphical abstract and Fig. 4 are as shown here.

Graphical abstract

The design and synthesis of a novel class of fascinating Mn<sub>4</sub> clusters, and their magnetic exchange interaction studies and electrocatalytic effectiveness for the HER from water splitting with in-depth mechanistic aspects have been reported.
