Correction: A mitochondrial-targeting and NO-based anticancer nanosystem with enhanced photo-controllability and low dark-toxicity

Jiangsheng Xu, Fang Zeng,* Hao Wu and Shuizhu Wu*

DOI: 10.1039/d5tb90071a

rsc.li/materials-b

Correction for 'A mitochondrial-targeting and NO-based anticancer nanosystem with enhanced photo-controllability and low dark-toxicity' by Jiangsheng Xu *et al.*, *J. Mater. Chem. B*, 2015, **3**, 4904–4912, https://doi.org/10.1039/C5TB00522A.

The authors regret that due to an error in the preparation of the figure, the high-resolution transmission electronic microscopy (HR-TEM) image was incorrect in Fig. 1B in the originally published article. The correct version of Fig. 1 is shown herein.

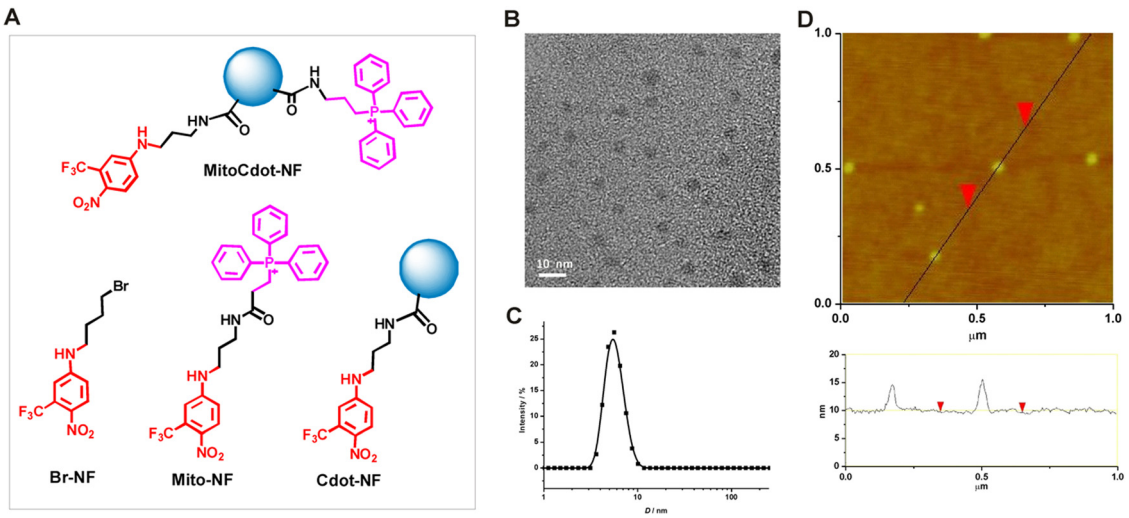

Fig. 1 Structures of four NO-releasing systems (A). The HR-TEM (B), DLS (C) and AFM (D) analysis results of MitoCdot-NF. The lower panel of (D) gives the height profile along the line in the topographic image in the upper panel.

There has also been a correction made to the *x*-axis in Fig. S18; please see the Supplementary Information.
The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.

College of Materials Science and Engineering, State Key Laboratory of Luminescent Materials and Devices, South China University of Technology, 510640, China.
