Correction for 'Impact of oxygen vacancy reduction on the dielectric, energy storage, and electrocaloric properties of annealed BCZT ceramic' by Vartika Khandelwal *et al.*, *J. Mater. Chem. C*, 2025, **13**, 10178–10193, https://doi.org/10.1039/D5TC00115C.

In the published article, the Fig. 2a and b inset images were unfortunately omitted. The corrected Fig. 2 is as shown here.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.

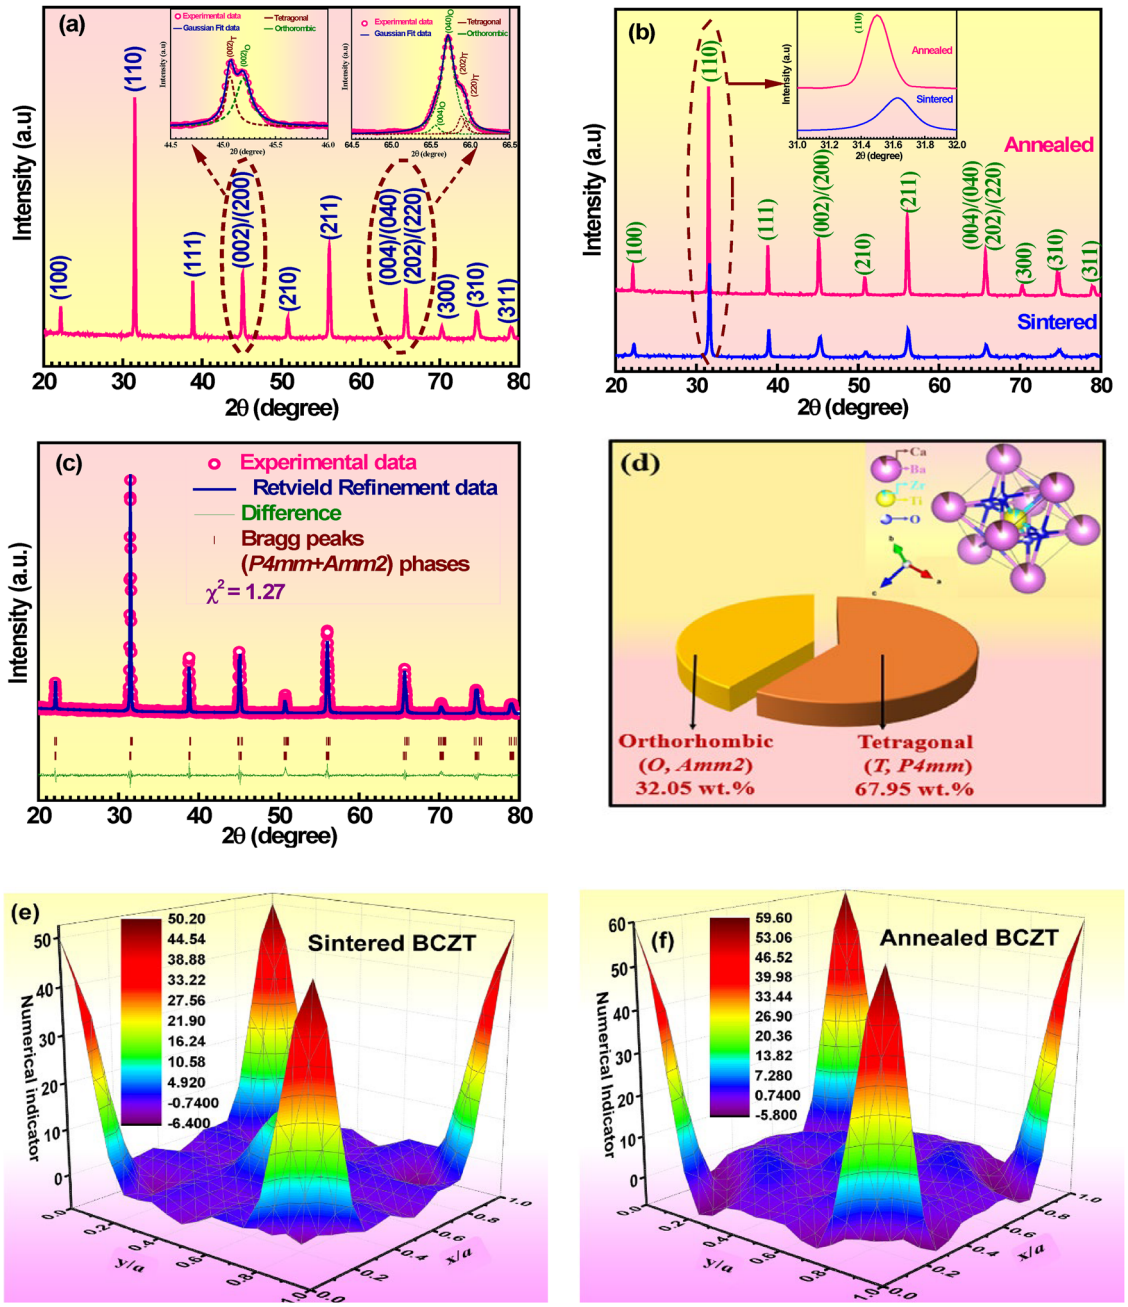

Fig. 2 (a) The XRD pattern, its insets show the Gaussian fitting at the 2θ range 44.5°–46° and 64.5°–66.5° of the annealed BCZT ceramic. (b) A comparison of the XRD pattern of sintered and annealed BCZT samples, (c) the Rietveld refinement pattern, (d) a 3-D pie chart of wt% phase composition, the inset shows the crystal structure of the annealed sample, and (e) and (f) an electron density graph of sintered and annealed BCZT ceramics, respectively.
