Outstanding Reviewers for *Energy Advances* in 2024

We would like to take this opportunity to thank all of *Energy Advances*' reviewers for helping to preserve quality and integrity in chemical science literature. We would also like to highlight the Outstanding Reviewers for *Energy Advances* in 2024.

Each one of our outstanding peer reviewers has been carefully selected by our editorial team and includes active researchers who have made significant contributions to peer review and have gone above and beyond in their actions. As well as reviewers who have provided a significant number of quality reports, we recognize reviewers who have provided clear adjudicative reports, reviewers who have taken great care to help authors improve their manuscripts and reviewers who have provided exceptionally insightful and detailed reports.

“At Energy Advances, we see our reviewers as the dedicated gardeners of the scientific ecosystem. With a steady hand and an eye for detail, they help shape the growth of each manuscript—cultivating insight, pruning with care, and giving promising ideas the space and structure to flourish. As we focus on the paper and its authors, the reviewers’ work often remains unseen. We are especially grateful to our Outstanding Reviewers of 2024, whose thoughtful engagement and generosity of

time have helped us nurture a culture of excellence, transparency, and trust. Their work reminds us that the strength of a journal lies not only in the articles it publishes, but in the collective care that supports them.” – Professor Volker Presser, Editor-in-Chief.
