The authors regret that one of funding numbers within the acknowledgements section of their original article was incorrectly stated as Shenzhen Science and Technology Innovation Commission (JCYJ20220531101202005). The updated acknowledgements paragraph with correct information is as follows:

We are grateful for the financial support from Shenzhen Science and Technology Program (KQTD20221101093605019), Medical-Engineering Interdisciplinary Research Foundation of Shenzhen University (2023YG001), Shenzhen Science and Technology Innovation Commission (JCYJ20220818095801004), and Shenzhen Key Laboratory of Nano-Biosensing Technology (ZDSYS20210112161400001). The authors also thank the Instrumental Analysis Center of Shenzhen University for the technical assistance.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
