## Correction: Optimization of photodegradation of crystal violet dye and biomedical applications of greenly synthesized NiO nanoparticles

Abu Bakar Siddique,<sup>a</sup> Muhammad Ashraf Shaheen,<sup>\*ab</sup> Shakra Shafeeq,<sup>c</sup> Azhar Abbas,<sup>ad</sup> Yasir Zaman,<sup>e</sup> Muhammad Zahid Ishaque<sup>e</sup> and Muhammad Aslam<sup>f</sup>

Correction for 'Optimization of photodegradation of crystal violet dye and biomedical applications of greenly synthesized NiO nanoparticles' by Abu Bakar Siddique et al., *Mater. Adv.*, 2025, 6, 1330–1344, <https://doi.org/10.1039/D4MA01078G>.

The authors regret that the energy bandgap value of the CMFE@NiO NPs, calculated by Tauc's plot in Fig. 1a (inset), was incorrect. The corrected Fig. 1a is shown here, indicating an energy bandgap of 3.22 eV for CMFE@NiO NPs. This correction does not affect any of the conclusions of the article.

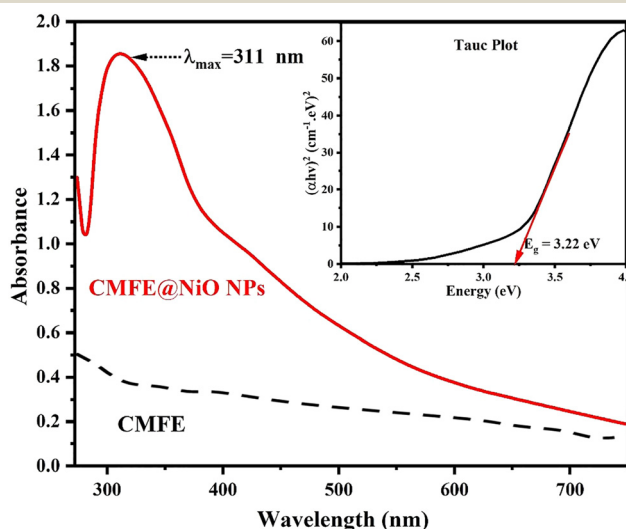

Fig. 1 (a) UV-Vis spectra of CMFE and CMFE@NiO NPs and Tauc's plot of CMFE@NiO NPs (inset).

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
