 Expression of concern for 'Evaluating the biological characteristics of targeted ZIF-8-encapsulated individual and combined drug systems for enhanced *in vivo* toxicity mitigation using folic acid ligands' by Noor S. Sadeq et al., *RSC Adv.*, 2026, 16, 1912–1931, <https://doi.org/10.1039/D5RA07756G>.

The Royal Society of Chemistry is publishing this expression of concern in order to alert readers that concerns have been raised regarding the interpretation of the FTIR data in Fig. 1 and the reliability of the survival rate data in Fig. 8.

An update will be provided as soon as possible.

Laura Fisher
