Yasuyuki Sakai,^{be} Amar Abderrahmani*^d and Eric Leclerc*^e

Correction for 'Generation of β -like cell subtypes from differentiated human induced pluripotent stem cells in 3D spheroids' by Lisa Morisseau et al., *Mol. Omics*, 2023, <https://doi.org/10.1039/d3mo00050h>.

The authors regret that there was an error in Fig. 1 of the published article. The corrected figure is shown below with the correct caption.

In addition, in Section 3 Results, 3.1. Morphology and basal functional analysis, the sentences 'We presented the spheroids' morphologies 24 h after seeding (Fig. 1A) and at the end of the culture (16 days, Fig. 1B). The cell suspension aggregated into spheroids within the first 24 h of culture.' should read 'We presented the spheroids' morphologies 48 h after seeding (Fig. 1A) and at the end of the culture (day 15, Fig. 1B). The cell suspension aggregated into spheroids within the first 48 h of culture.'

Fig. 1 (A) Morphologies of the spheroids after 48h of culture; (B) morphologies of the spheroids at the end of the culture (day 15); (C) insulin secretion in glucose stimulation assays: ratio of insulin between low and high glucose ($n = 3$, p -value < 0.05).

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
