Correction for 'Chiral ruthenium polypyridyl complexes as mitochondria-targeted apoptosis inducers' by Tianfeng Chen *et al.*, *Med. Chem. Commun.*, 2010, **1**, 73–75.

The authors regret that in Table 1 of their manuscript the data for **Δ-3** and **Λ-3** were swapped. The corrected table is shown below.

Table 1 Cytotoxic effects of chiral Ru polypyridyl complexes on human cancer and normal cell lines

IC_{50}/μM						
Complexes	A375	HepG2	SW620	PC-3	HS68	HK-2
Δ-1	35.3 ± 4.2	19.9 ± 2.5	45.2 ± 3.3	99.1 ± 7.2	—	—
Λ-1	28.1 ± 3.7	11.4 ± 1.3	29.9 ± 2.0	82.7 ± 5.6	—	—
Δ-2	48.4 ± 6.3	16.6 ± 2.3	36.6 ± 4.5	>200	—	—
Λ-2	49.9 ± 8.5	19.9 ± 1.7	51.0 ± 3.4	>200	—	—
Δ-3	17.7 ± 2.6	54.8 ± 6.4	33.2 ± 2.2	>200	—	—
Λ-3	5.9 ± 1.1	10.0 ± 1.2	18.9 ± 0.9	79.5 ± 8.1	18.8 ± 3.9	108.5 ± 9.3
Cisplatin	7.3 ± 0.8	13.6 ± 2.0	30.0 ± 4.1	36.2 ± 2.9	1.8 ± 0.7	10.3 ± 2.1

In addition, on page 74, left column, top paragraph, the IC_{50} values for cisplatin against HS68 and HK-2 cells should be corrected to show 'cisplatin (1.8 and 10.3 μM respectively)' instead of 'cisplatin (4.8 and 3.2 μM respectively)'.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
