Correction: A new visible light and temperature responsive diblock copolymer

Sijia Qian,[a] Shenzhen Li,[a] Weifeng Xiong,*[b] Habib Khan,[a] Jing Huang*[c] and Wangqing Zhang*[a,d]

Correction for 'A new visible light and temperature responsive diblock copolymer' by Sijia Qian, *et al.*, *Polym. Chem.*, 2019, **10**, 5001–5009.

The authors apologize that an incorrect image was presented in Fig. 6B part c. During the preparation of Fig. 6B, the authors mistakenly used a SEM image of $PmAzo_{46}$-*b*-$PNIPAM_{90}$ micelles from Fig. 3A. The corrected Fig. 6 is shown here.

The conclusions of this article are unaffected by this correction. The authors apologize for any inconvenience this error may have caused.

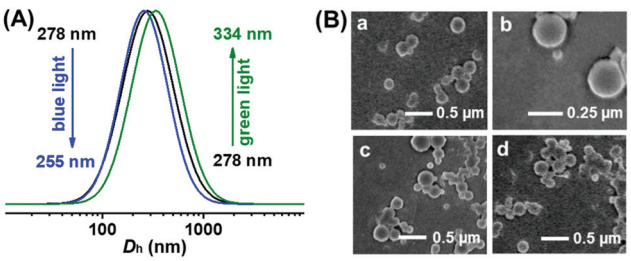

Fig. 6 D_h of the 0.1 mg mL^{-1} $PmAzo_{46}$-*b*-$PNIPAM_{114}$ micelles at 20 °C without light irradiation, with 532 nm green light irradiation and 450 nm blue light irradiation for 1 h (A); SEM images of the $PmAzo_{46}$-*b*-$PNIPAM_{114}$ micelles (B): without light irradiation (a, b), with 532 nm green light irradiation for 1 h (c) and 450 nm blue light irradiation for 1 h (d).

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
