Correction for 'Controlled chemical assembly of enzymes in cell lysate enabled by genetic-encoded nonstandard amino acids' by Jing Zhang et al., *Mater. Chem. Front.*, 2022, 6, 182–193, <https://doi.org/10.1039/D1QM01285A>.

The authors regret that there was an error in the original article. The compound (*R*)-3,5-bis (trifluoromethyl) phenylethanol was incorrectly shown in the *S*-conformation in Fig. 6. The corrected Fig. 6 is presented here. The incorrect structure was also shown in the Supplementary Information, which has been updated with a corrected version.

Fig. 6 HPLC analysis of the synthesized (*R*)-3,5-bis (trifluoromethyl) phenylethanol using AKR mutant preparations (A, banded-AKR-assembly (AKR-114Y-189Q); B, cyclic-AKR-assembly* (AKR-114Y-189Q); C, cyclic-AKR-CLEs (AKR-198Y-232W), 16 h), thermal stability of AKR-CLEs (D), stability of AKR-CLEs in mimic gastric and intestinal fluids environments for 2 h (E).

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
