Correction for 'One-step mild preparation of tough and thermo-reversible poly(vinyl alcohol) hydrogels induced by small molecules' by Chuang Dong *et al.*, *Chem. Commun.*, 2021, **57**, 3789–3792, https://doi.org/10.1039/D1CC00578B.

The authors regret that a related reference was missing in the original article. On page 3791, right column, second paragraph, which reads: ''This red shift of the -OH groups suggested the enhancement of the hydrogen bonding,[36,37]'', a new reference should be added as reference 38 (shown as ref. 1 below). This work reported improved PVA hydrogels by the use of small molecules containing phenolic groups.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
