Correction: A desferrioxamine B squaramide ester for the incorporation of zirconium-89 into antibodies

Stacey E. Rudd,^a Peter Roselt,^b Carleen Cullinane,^{bc} Rodney J. Hicks^{*cd} and Paul S. Donnelly^{*a}

Correction for 'A desferrioxamine B squaramide ester for the incorporation of zirconium-89 into antibodies' by Stacey E. Rudd *et al.*, *Chem. Commun.*, 2016, DOI: 10.1039/c6cc05961a.

The authors regret that a significant reference was omitted from the original article. A citation to work by Gasser, Mindt and co-workers should have been included in the first page.

"The addition of an extra hydroxamic acid functional group to give an octadentate variant called DFO* resulted in improved stability of ⁸⁹Zr^{IV} complexes but the ligand suffers from limited solubility in aqueous environments.¹"

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
