Correction for 'Cu(ı) diimine complexes as immobilised antibacterial photosensitisers operating in water under visible light' by Martin V. Appleby et al., Mater. Adv., 2020, 1, 3417-3427, https://doi.org/10.1039/ D0MA00642D

The authors regret that a chemical structure was depicted incorrectly in Fig. 1 and Scheme S1. The corrected figures are as shown below.

Fig. 1 Chemical structure of complex $\mathbf{1}$ with counterion tfpb $^-$. Structure of complex $\mathbf{1}$ obtained by single crystal X-ray crystallography, which is fully consistent with that published previously, is given in the ESI,† Fig. S8. CCDC 2012235.

$$\begin{array}{c|c} & i) & Xantphos \\ & DCM \\ & Ph \\ & Ph \\ & ii) \ dmp, \ rt, \ 1hr \\ & iii) Et_2O \end{array} \xrightarrow{Ph} BF_4 \begin{array}{c} i) & Na(tfpb), \ MeOH \\ & Ph \\ & P$$

Scheme S1 Synthesis scheme of complex 1.¹

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
